23 cu. ft. French Door Refrigerator with External Water & Ice Dispenser

Twin Cooling Plus System®:
Delivers superior food preservation results usually only found in advanced commercial-grade cooling systems. Twin Cooling Plus System®, the next generation of Twin Cooling® technology, uses two evaporators with only one compressor to independently control temperature in the refrigerator and freezer compartments, maintaining optimal humidity levels and preventing odor transfers between compartments.

Surround Air Flow:
Surround Air Flow provides even cooling throughout the refrigerator to maintain optimal temperatures to keep food fresh.

Power Freeze and Power Cool Options:
Power Freeze and Power Cool Options can be used when foods need to be brought down to a lower temperature quickly or when the temperature inside the refrigerator or freezer compartment needs to be cooled due to repeated door openings.

Cool Select Pantry™:
Cool Select Pantry™ provides additional temperature control for your food storage needs with Quick Cool, Thaw and Soft Freeze, Chill Mode, and Cool Mode options.

External Digital Display and Control:
Controlling the refrigerator is easy with the external digital display. It shows the inside temperatures, when to change your filter and also controls the ice and water dispenser.

Water Filter:
Samsung's water dispenser provides filtered water without sacrificing your interior space. Ice cubes are conveniently located in the freezer.

Door Alarm:
Prevents food spoilage by alerting you if the freezer or refrigerator door has been accidentally left open.
